NETAJI SUBHAS INSTITUTE OF TECHNOLOGY

AMHARA, BIHTA

A NAAC ACCREDITED COLLEGE

An Ultimate Source of Technology

ENGINEERS' DAY 2026

BUILDATHON

AI PRODUCT BUILDATHON

A 1-DAY hands-on competition where YOU build a digital product prototype using AI.

NO CODING? NO PROBLEM!
You don't need to be a coder. We'll show you everything.

BUILD YOUR OWN IDEA
Solve a real problem and turn your idea into a working prototype.

EVENT DATE
12TH SEPTEMBER 2026
(BUILDATHON DAY)

COLLEGE
NSIT BIHTA

REGISTRATION FEE
₹ 200
PER STUDENT

TEAM SIZE
Maximum of
4 STUDENTS
per team

REGISTRATION LAST DATE
11TH SEPTEMBER 2026

REGISTER NOW!

WHO CAN PARTICIPATE?

All students are welcome!

- BBA • BCA • B.Tech
- MBA • MCA • Diploma
- Any Stream. Any Year.

Everyone Can Build!

SKILLS THAT YOU CAN APPLY IN:

- College Projects
- Internships
- Jobs
- Start-ups
- Freelancing
- Problem Solving

WHAT TO EXPECT?

LIVE SESSION & DEMO
Before the competition, we will train you and show you live.

BUILD & CREATE
Work in teams to build your product prototype using AI.

PITCH & COMPETE
Present your product your compete with other teams.

WIN & GROW
Top teams will be recognized and rewarded.

DIGITAL CERTIFICATE
All participants will get a digital certificate to boost your resume & LinkedIn.

Imagine. Innovate. Build. Win It.

PRIZES

- 1ST PRIZE ₹ 5,000/-
- 2ND PRIZE ₹ 2,000/-
- 3RD PRIZE ₹ 1,000/-

Prizes will be awarded on
15TH SEPTEMBER 2026
(WINNER & RUNNER-UP ANNOUNCEMENT AND FELICITATION)

IMAGINE YOUR IDEA | INNOVATE SMARTER | BUILD YOUR SOLUTION | WIN THE FUTURE

Meet Your Builder

Passionate about building scalable technology & AI systems

Suraj Arya

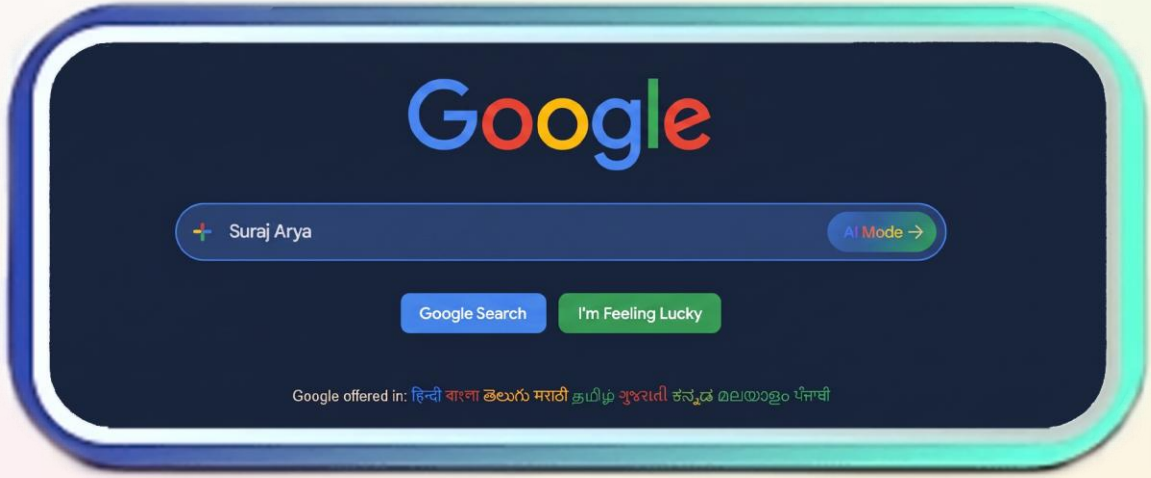

B.Tech CSE | 4th Semester • Diploma Holder

Software & AI enthusiast driven by experimentation. Focused on modern web ecosystems, agentic AI frameworks, and converting ideas into production-ready software.

INNOVATOR BUILDER CODER

CONNECT & NETWORK

LinkedIn GitHub Portfolio

ENGINEERS' DAY 2026 SPECIAL EDITION

BUILD WITH AI

From Idea to Working Project — Faster Than Ever

NSIT Buildathon 2026

AI Build Lab

Learn • Build • Deploy

USE AI. BUILD YOUR IDEA. CREATE REAL IMPACT.

Great projects start with better questions

Use a simple framework before choosing a tool.

01

WHAT?

What are we solving?

02

WHY?

Why does it matter?

03

HOW?

How can technology help?

CLARITY BEFORE CODE

You Don't Need to Know Everything to Start

Shift mental models from syntax memorization to systemic orchestration.

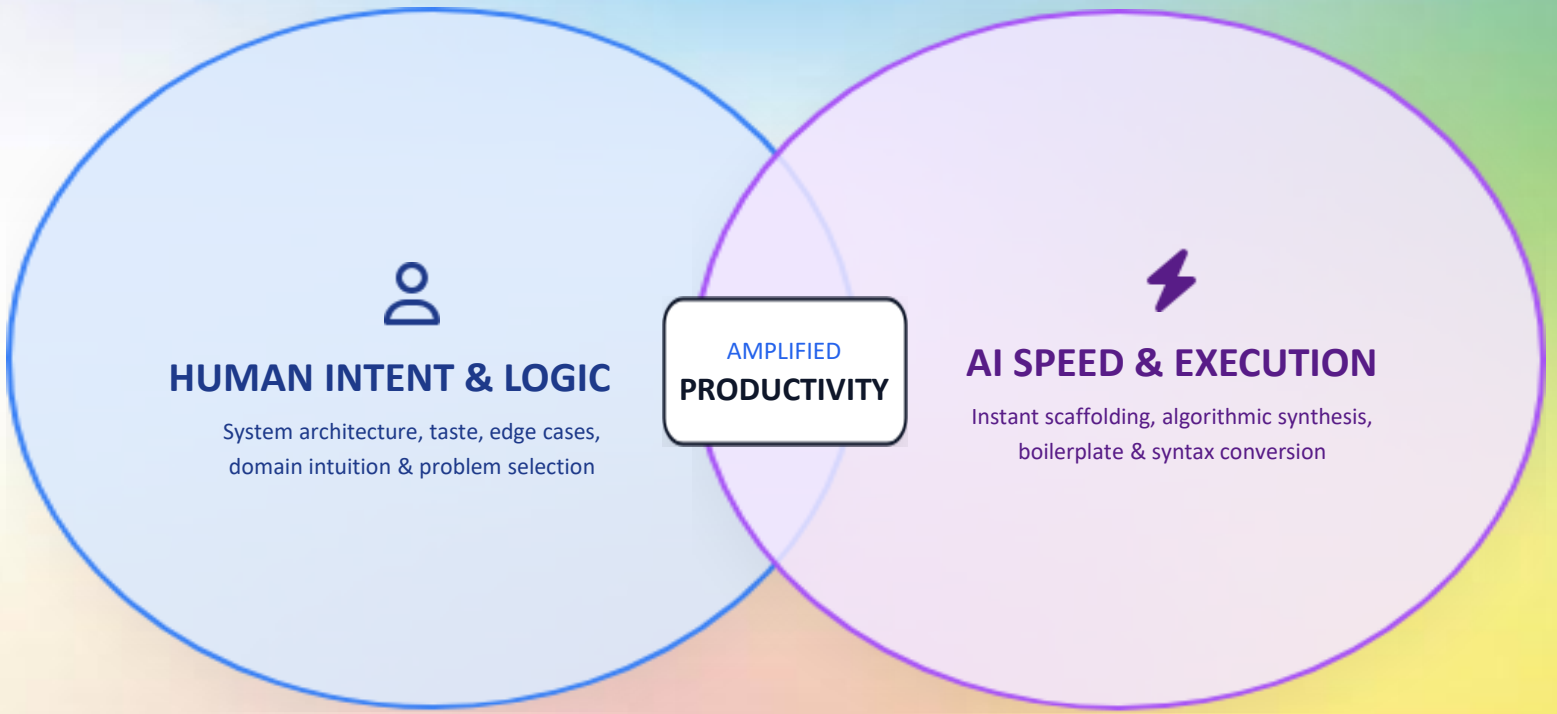

Think Clearly

Explain Precisely

Iterate Continuously

AI Doesn't Replace Thinking. It Amplifies It.

Supercharge your velocity from raw concept to ship-ready software.

- ✓ Build Faster & Explore New Stacks
- ✓ Experiment Fearlessly with Logic
- ✓ Shift Focus from Syntax to Architecture

One Idea. Many AI Tools.

Select the right intelligence engine for every stage of development.

THINK & REASON

PLANNING

ChatGPT • Claude • Gemini

System design formulation, prompt engineering, edge-case analysis, and structural reasoning.

BUILD & CODE

CREATION

Antigravity • AI Studio • AI Agents

Autonomous development loops, boilerplate scaffolding, and live full-stack prototyping.

CREATE & MEDIA

MULTIMODAL

Suno • Sarvam AI • Generative Art

Audio synthesis, localized multilingual NLP, and custom multimodal asset generation.

DEPLOY & SERVE

HOSTING

Azure AI • Ollama • Copilot Studio

Self-hosted local models, enterprise integrations, model serving, and serverless endpoints.

Today's Building Partner: Antigravity

From Prompt → To Prototype → To Product

Build 10x Faster

AI-assisted coding and automated component scaffolding eliminate initial blank-canvas paralysis.

Rapid Iteration

Real-time hot-reloading with instant contextual fixes right within your interactive development view.

Zero Friction

Convert pure natural-language requirements directly into clean, modular, production-ready source code.

ANTIGRAVITY ACCELERATOR

Natural Language Specs Fullstack App

Your Idea + AI + Iteration = Working Product

Build one useful thing: a single-page portfolio

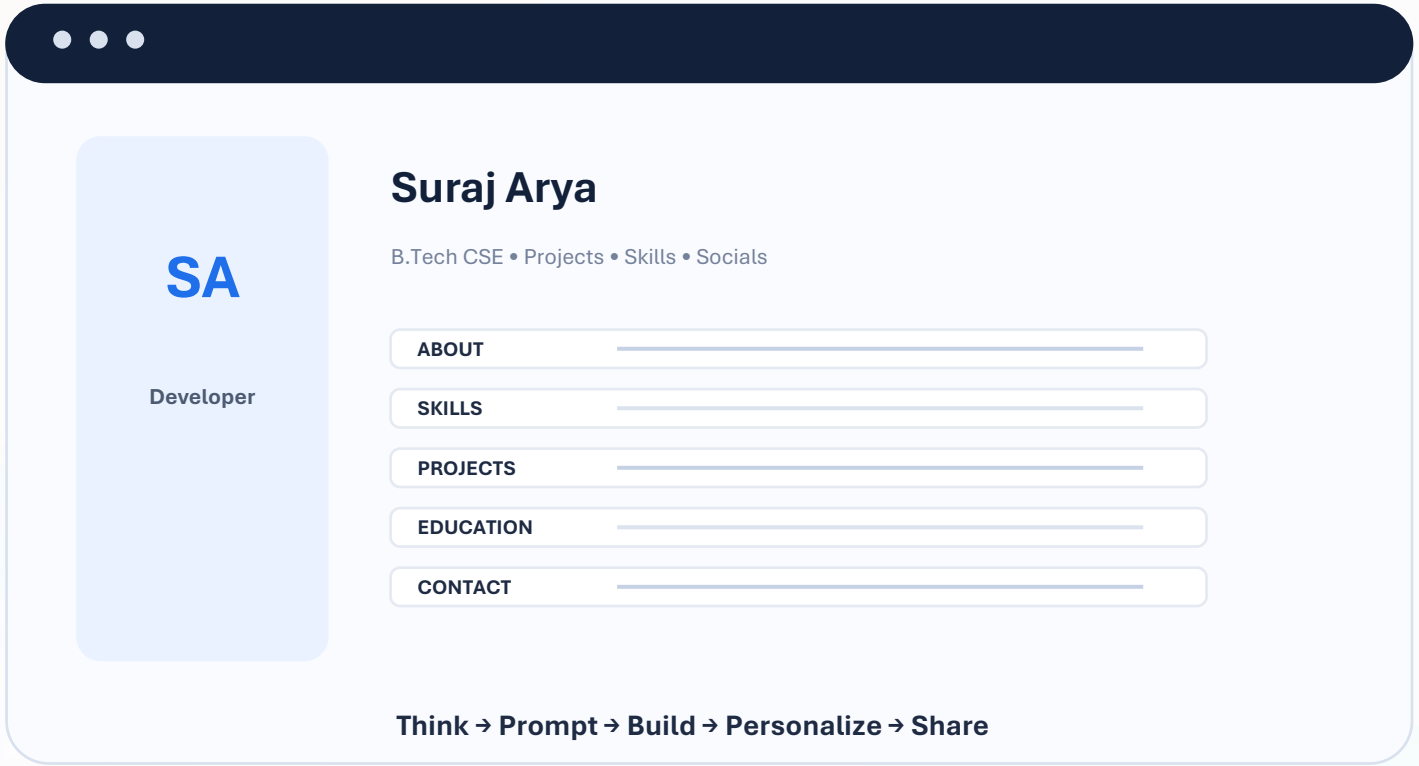

A small scope with a professional outcome.

BUILDATHON TASK 01

Personal Portfolio

Your one-page digital identity: who you are, what you can build, and where people can find your work.

ABOUT SKILLS PROJECTS SOCIALS

From local project to collaborative work

Version control and public sharing make the buildathon output reusable.

GIT

Track changes locally

COMMIT BRANCH

GITHUB

Store • collaborate • showcase

REPO PROFILE

DEPLOY

Make the project accessible online

LIVE URL SHARE

CODE COMMIT PUSH DEPLOY SHARE

Professional habit: save your work, document your work, publish your work.

Don't Just Build Projects. Put Them Online.

A project stored on localhost doesn't exist for the world. Ship it live on the web and get real users.

PRODUCTION CLOUD TARGETS

Vercel • Netlify • Render • AWS

Zero-configuration continuous deployment from your main GitHub branch with automatic SSL certificates and edge CDN distribution.

YOUR CALL TO ACTION

THINK. BUILD. EXPERIMENT. DEPLOY.

Netaji Subhas Institute of Technology • NSIT Buildathon 2026
